LL.M.(with Credits)-External-Semester 2012 Sem II (Old Course)

Course Code FC-04 - Legal Education and Research Methodology-I

Notes: 1. Attempt any five questions in all including Q. No. 1 which is compulsory. 2. All questions carry equal marks. 1. Write short notes on any two. a) Null hypothesis. b) Sampling design. c) Discussion method: Merits & Demerits. d) Tabulation of data. 2. Explain the scope and significance of Lecture method and its merits and demerits in teaching. 3. What do you mean by Doctrinal and Non-doctrinal Research? How do they differ from each others? 4. Explain: a) Citation b) Bibliography 5. Define sampling method and discuss the various types of sampling methods. 6. Explain: i) Legal aid and legal literacy. ii) Editing and coding. 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research.	P. Pages : Time : Thr		s	* 1 5 3 0	 *	GUG/S/18/5488 Max. Marks: 80
a) Null hypothesis. b) Sampling design. c) Discussion method: Merits & Demerits. d) Tabulation of data. 2. Explain the scope and significance of Lecture method and its merits and demerits in teaching. 3. What do you mean by Doctrinal and Non-doctrinal Research? How do they differ from each others? 4. Explain: a) Citation b) Bibliography 5. Define sampling method and discuss the various types of sampling methods. 6. Explain: i) Legal aid and legal literacy. ii) Editing and coding. 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research.	Note				uding Q. No. 1 which	is compulsory.
b) Sampling design. c) Discussion method: Merits & Demerits. d) Tabulation of data. 2. Explain the scope and significance of Lecture method and its merits and demerits in teaching. 3. What do you mean by Doctrinal and Non-doctrinal Research? How do they differ from each others? 4. Explain: a) Citation b) Bibliography 5. Define sampling method and discuss the various types of sampling methods. 6. Explain: i) Legal aid and legal literacy. ii) Editing and coding. 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research.	1.	Write short notes on any two.				
c) Discussion method: Merits & Demerits. d) Tabulation of data. 2. Explain the scope and significance of Lecture method and its merits and demerits in teaching. 3. What do you mean by Doctrinal and Non-doctrinal Research? How do they differ from each others? 4. Explain: a) Citation b) Bibliography 5. Define sampling method and discuss the various types of sampling methods. 6. Explain: i) Legal aid and legal literacy. ii) Editing and coding. 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research.		a) N	ull hypothesis.			
d) Tabulation of data. 2. Explain the scope and significance of Lecture method and its merits and demerits in teaching. 3. What do you mean by Doctrinal and Non-doctrinal Research? How do they differ from each others? 4. Explain:		b) Sa	ampling design.			
 Explain the scope and significance of Lecture method and its merits and demerits in teaching. What do you mean by Doctrinal and Non-doctrinal Research? How do they differ from each others? Explain: a) Citation b) Bibliography Define sampling method and discuss the various types of sampling methods. Explain: i) Legal aid and legal literacy. ii) Editing and coding. What do you understand by Research report? State the characteristics of Good Research report. Explain the different uses of computer in the modern context of Research. 		c) Di	iscussion method: Merits	& Demerits.		
 teaching. What do you mean by Doctrinal and Non-doctrinal Research? How do they differ from each others? Explain: a) Citation b) Bibliography Define sampling method and discuss the various types of sampling methods. Explain: i) Legal aid and legal literacy. ii) Editing and coding. What do you understand by Research report? State the characteristics of Good Research report. Explain the different uses of computer in the modern context of Research. 		d) Ta	abulation of data.			
others? 4. Explain: a) Citation b) Bibliography 5. Define sampling method and discuss the various types of sampling methods. 6. Explain: i) Legal aid and legal literacy. ii) Editing and coding. 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research.	2.					
 a) Citation b) Bibliography 5. Define sampling method and discuss the various types of sampling methods. 6. Explain: i) Legal aid and legal literacy. ii) Editing and coding. 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research. 	3.	· · · · · · · · · · · · · · · · · · ·				
 6. Explain: Legal aid and legal literacy. Editing and coding. 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research. 	4.	-		b)	Bibliography	
 i) Legal aid and legal literacy. ii) Editing and coding. 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research. 	5.	Define sampling method and discuss the various types of sampling methods.				
 ii) Editing and coding. 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research. 	6.	Explain:				
 7. What do you understand by Research report? State the characteristics of Good Research report. 8. Explain the different uses of computer in the modern context of Research. 		i) Le	egal aid and legal literacy	y.		
report. 8. Explain the different uses of computer in the modern context of Research.		ii) Ed	liting and coding.			
	7.					
*****	8.	Explain	n the different uses of co	mputer in the r	nodern context of Rese	earch.
